PROFESSIONAL SUMMARY

Frontend engineer with 5+ years building production web applications in React, TypeScript, and GraphQL. Owns complex, business-critical modules end to end — from state management and nested routing to third-party integrations — and ships reusable, maintainable UI from design handoff to deployment.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, SCSS

Frameworks & Libraries: React.js, Next.js, Redux, Zustand, GraphQL, Tailwind CSS

Integrations & Automation: Nango, Zapier, Zenoti

Backend & Data: Node.js, Express.js, MongoDB

Tooling: Git, GitHub, Zeplin, Cursor, Claude

AI: RAG, LLM Integration, Prompt Engineering, AI Agents, Tool Calling, Agentic Workflows, Planning & Reasoning, Iterative Loops

PROFESSIONAL EXPERIENCE

Delightree — Frontend Developer

Remote | Jun 2024 – Present

- Led end-to-end delivery of business-critical features, owning development from design handoff through implementation, testing, and production deployment with minimal supervision.
- Built **3 flagship franchise management modules—Compliance, Audit, and Training Paths**—using React with complex state management and deeply nested routing, enabling streamlined document workflows, employee training, and performance tracking.
- Developed the application's authentication and authorization system, implementing a scalable Role-Based Access Control (RBAC) architecture supporting **6 authentication roles**, multiple permission rules, protected routes, feature-level access control, and dynamic UI rendering based on user roles.
- Designed and shipped **2 production-grade third-party integrations (Zenoti via Nango and Zapier)**, automating franchise onboarding workflows and reducing customer onboarding time by 60–70% while significantly minimizing manual configuration.
- Owned the application's GraphQL layer by authoring queries and mutations, implementing efficient client-side caching and state management, and optimizing data fetching to reduce redundant network requests by **20–30%**.
- Built and maintained **20+ reusable, production-ready React components**, improving UI consistency, reducing duplicate code, and accelerating feature development by **35–40%** while collaborating closely with product, design, and backend teams.

Advanced Voice Research Labs — SDE I

Remote | May 2022 – May 2024

- Built and deployed multiple production-ready AI chatbot solutions, managing the complete development lifecycle from implementation to deployment on **24x7** cloud-hosted virtual machines, ensuring high availability and reliable performance.
- Designed and developed the company's documentation platform from the ground up, creating a centralized knowledge base that improved developer onboarding and reduced support overhead.
- Collaborated with cross-functional teams to deliver customer-facing features, resolve production issues, and continuously improve platform usability and developer experience.

Ashriya Infotech Pvt. Ltd. — Web Developer

Mohali | Nov 2020 – Apr 2022

- Cut search **API calls by 60%** by implementing debouncing.
- Improved page-load performance through lazy loading and React Query caching.
- Built React.js and JavaScript applications from scratch and enhanced existing codebases.

EDUCATION

B.E., Computer Science Engineering

Sant Longowal Institute of Engineering and Technology (SLIET), Sangrur, Punjab

Graduated May 2020

CERTIFICATIONS & ACHIEVEMENTS

- [HackerRank](#) — 5 Stars in Problem Solving.
- [Udemy](#) – Complete web developer certificate
